#### Reasons For Allowance

Claims 1 – 3, 5 – 14, 16 – 18 are allowable.

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims the prior arts made of record fail to suggest a data encoder for encoding a codeword having a plurality of symbols for transmission through a data channel that comprises a Reed-Solomon encoder for encoding a codeword prior to receipt by a turbo encoder. Also, in combination with other limitations of the claims, the prior arts made of record fail to suggest a turbo encoder system and method for encoding a digital signal including a codeword having a plurality of symbols comprising a turbo encoder for receiving an interleaved encoded codeword from a Forney interleaver, the turbo encoder having as least one modified dithered relatively prime interleaver for interleaving the codeword, at least two RSC encoders for encoding the codeword and the interleaved codeword, respectively and a puncturer for puncturing the codeword, the encoded codeword and the interleaved and encoder codeword to provide a turbo codeword.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
